- Uninsured deep-equity loans are conventional mortgage loans that have an initial loan-to-value ratio below 80% and meet special program criteria.
- Special program loans are made from funds other than bond proceeds and are held in the Special Reserve Fund. Although pledged to secure the Bonds, such mortgage loans are not required to satisfy the normal Trust Indenture requirements for mortgage loans and may be released from the lien of the Trust Indenture at the request of the Board. Of such loans, 75 are down payment and closing cost assistance second mortgage loans.
